

# Do you use one of the Top 25 stolen passwords?

Here are the most commonly used passwords along with suggestions for making yours more secure:

123456	12345678	Qwerty	abc123	monkey
234567	trustno1	Dragon	baseball	111111
iloveyou	sunshine	ashley	bailey	passw0rd
shadow	654321	superman	qazwsx	michael
				football

Use passwords with eight characters or more with mixed characters. Use spaces or characters to separate easy to remember phrases like "eat cake at 8" or "where\_2\_park?" Avoid using username-password combinations for multiple websites. It is especially risky to use the same passwords for entertainment sites that you use for online email, social websites and financial services.
